FROM THE **EDITOR**

Gotta have it!

Our Annual Industry Directory is one of the most popular issues we offer our readers. During the entire year we get requests for copies (and extra copies) of this valuable source book.

As you thumb through it, you'll first notice our handy tabs that guide you straight to the section you're seeking. Then you'll discover the practical list of fax numbers. Our readers told us that it's one of the best things about the Play Meter directory! We agreed. So much so that we went a step further, including a convenient list of e-mail addresses and Web sites.

If you're like most people, your Directory is at your fingertips at all times. We know that with the fax list and the new e-mail list, you definitely won't want to be without it. If someone in your company can't seem to keep his hands off of your copy, please tell him he can purchase his own for a nominal cost. It's probably the best investment you'll make this year.

While it's fresh on your mind, please take a close look at your listing and if there is anything that needs changing, let us know right now. That way, we'll have updated information for next year. Enjoy your book and don't forget the list of articles that appeared in Play Meter during 1996. It's great for finding that item you just know you read but can't remember when!

Sincerely,

Valerie Cognevich

Coin-op Entertainment
That Earns You More of These....

True! much of the equipment we sell still operates at two-bits. It's getting harder to make a living on equipment that still grosses only 25¢, but with business savvy, an eye on the bottom line and a Distributor like Central, it can be done. Since 1933 Central Distributing has offered operators the Best in Coin-op Entertainment. The Best Equipment selection, the Best Service, Best Parts department, and the "extra" services like Financing, Delivery and most importantly honest, *Wise Advice* on how to make the best R.O.I. on the equipment you operate. In the end, it means *more* Quarters and *Dollars* for YOU!

CAPCOM COIN-OP, INC. ("CAPCOM") WOULD LIKE ALL OPERATORS TO BE AWARE OF THE FOLLOWING:

Last year a provision of the U.S. copyright law (17 U.S.C. §109 (e)) that permitted the public performance of parallel and gray market video games expired*. As a result, the public performance (e.g., display in an arcade or other place for commercial gain) by an Operator of any video game that contains a gray market or parallel board without the copyright owner's authorization violates the rights of the copyright owner.

Operating and publicly performing "X-Men vs. Street Fighter" or other Capcom games which contain parallel or gray market boards, will be considered a violation of Capcom's rights under federal copyright law, and Capcom and Marvel Characters, Inc. will be forced to pursue all available legal remedies against such Operators. In addition to possible legal action, please bear in mind that parallel or gray market boards carry no warranty and have no convertability. The current "X-Men vs. Street Fighter" parallel boards contain a bug in the software program.

*The expiration of this provision occurred in part through the agreement of the American Amusement Machine Association ("AAMA") and the Amusement and Music Operators Association ("AMOA").

If you have any questions, please contact Steve Blattspieler at:

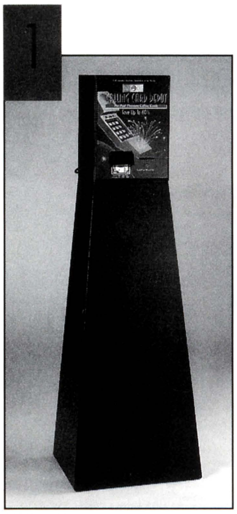
CALLING CARD DEPOT™
PHONE CARD VENDING – AS EASY AS



Model 801

Model 802

Model 803-D

Calling Card Depot™ vends discount long distance calling cards in three state-of-the-art machines that feature rugged, dependable service. A 4-sided marquee top adorns the two column model and a vacuum fluorescent dot-matrix moving sales message sign is available as an option for additional attraction.

These high-styled calling card vendors are made in one-column, two-column and three-column models to hold 200, 400, or 600 cards using tamper-proof and jam-proof Asahi-Seiko card dispensing units. Adding multiple columns to each machine allows more volume at the same price point or the ability to offer different price points for each column. Bill validators with built-in stackers accommodate up to 300 bills. Operations of all Calling Card Depot™ vending units are controlled by a proven Motorola solid-state microcontroller and proven logic to eliminate jackpots and free vends.

Despite the elegant design of the Calling Card Depot™ machines, they are ruggedly built of handcrafted 14 gauge galvannealed steel, rustproofed inside and out to automotive industry standards for years of durable, safe, tamperproof service. Machines come equipped with a tip and theft-prevention auto style alarm system with powerful siren. Calling Card Depot™ units can be placed on countertops, wall-mounted or stand freely on support cabinets or bases.

TEAM-UP WITH A WINNING COMBO!

AIR IT OUT
800
TICKETS

Air It Out™ is Bay Tek's way of strong-arming the competition. The player simply watches the lights chase until in position for the big TD pass. With a hit of the pass/stop button, the pass is complete. Every toss wins!

Willy B. Stinky™ is the fast flushin' lucrative, new game from Bay Tek. Insert coin(s) for nine balls of toilet-flushing, swirl-gushing fun! Young or old, they'll get the urge to go back again and again.

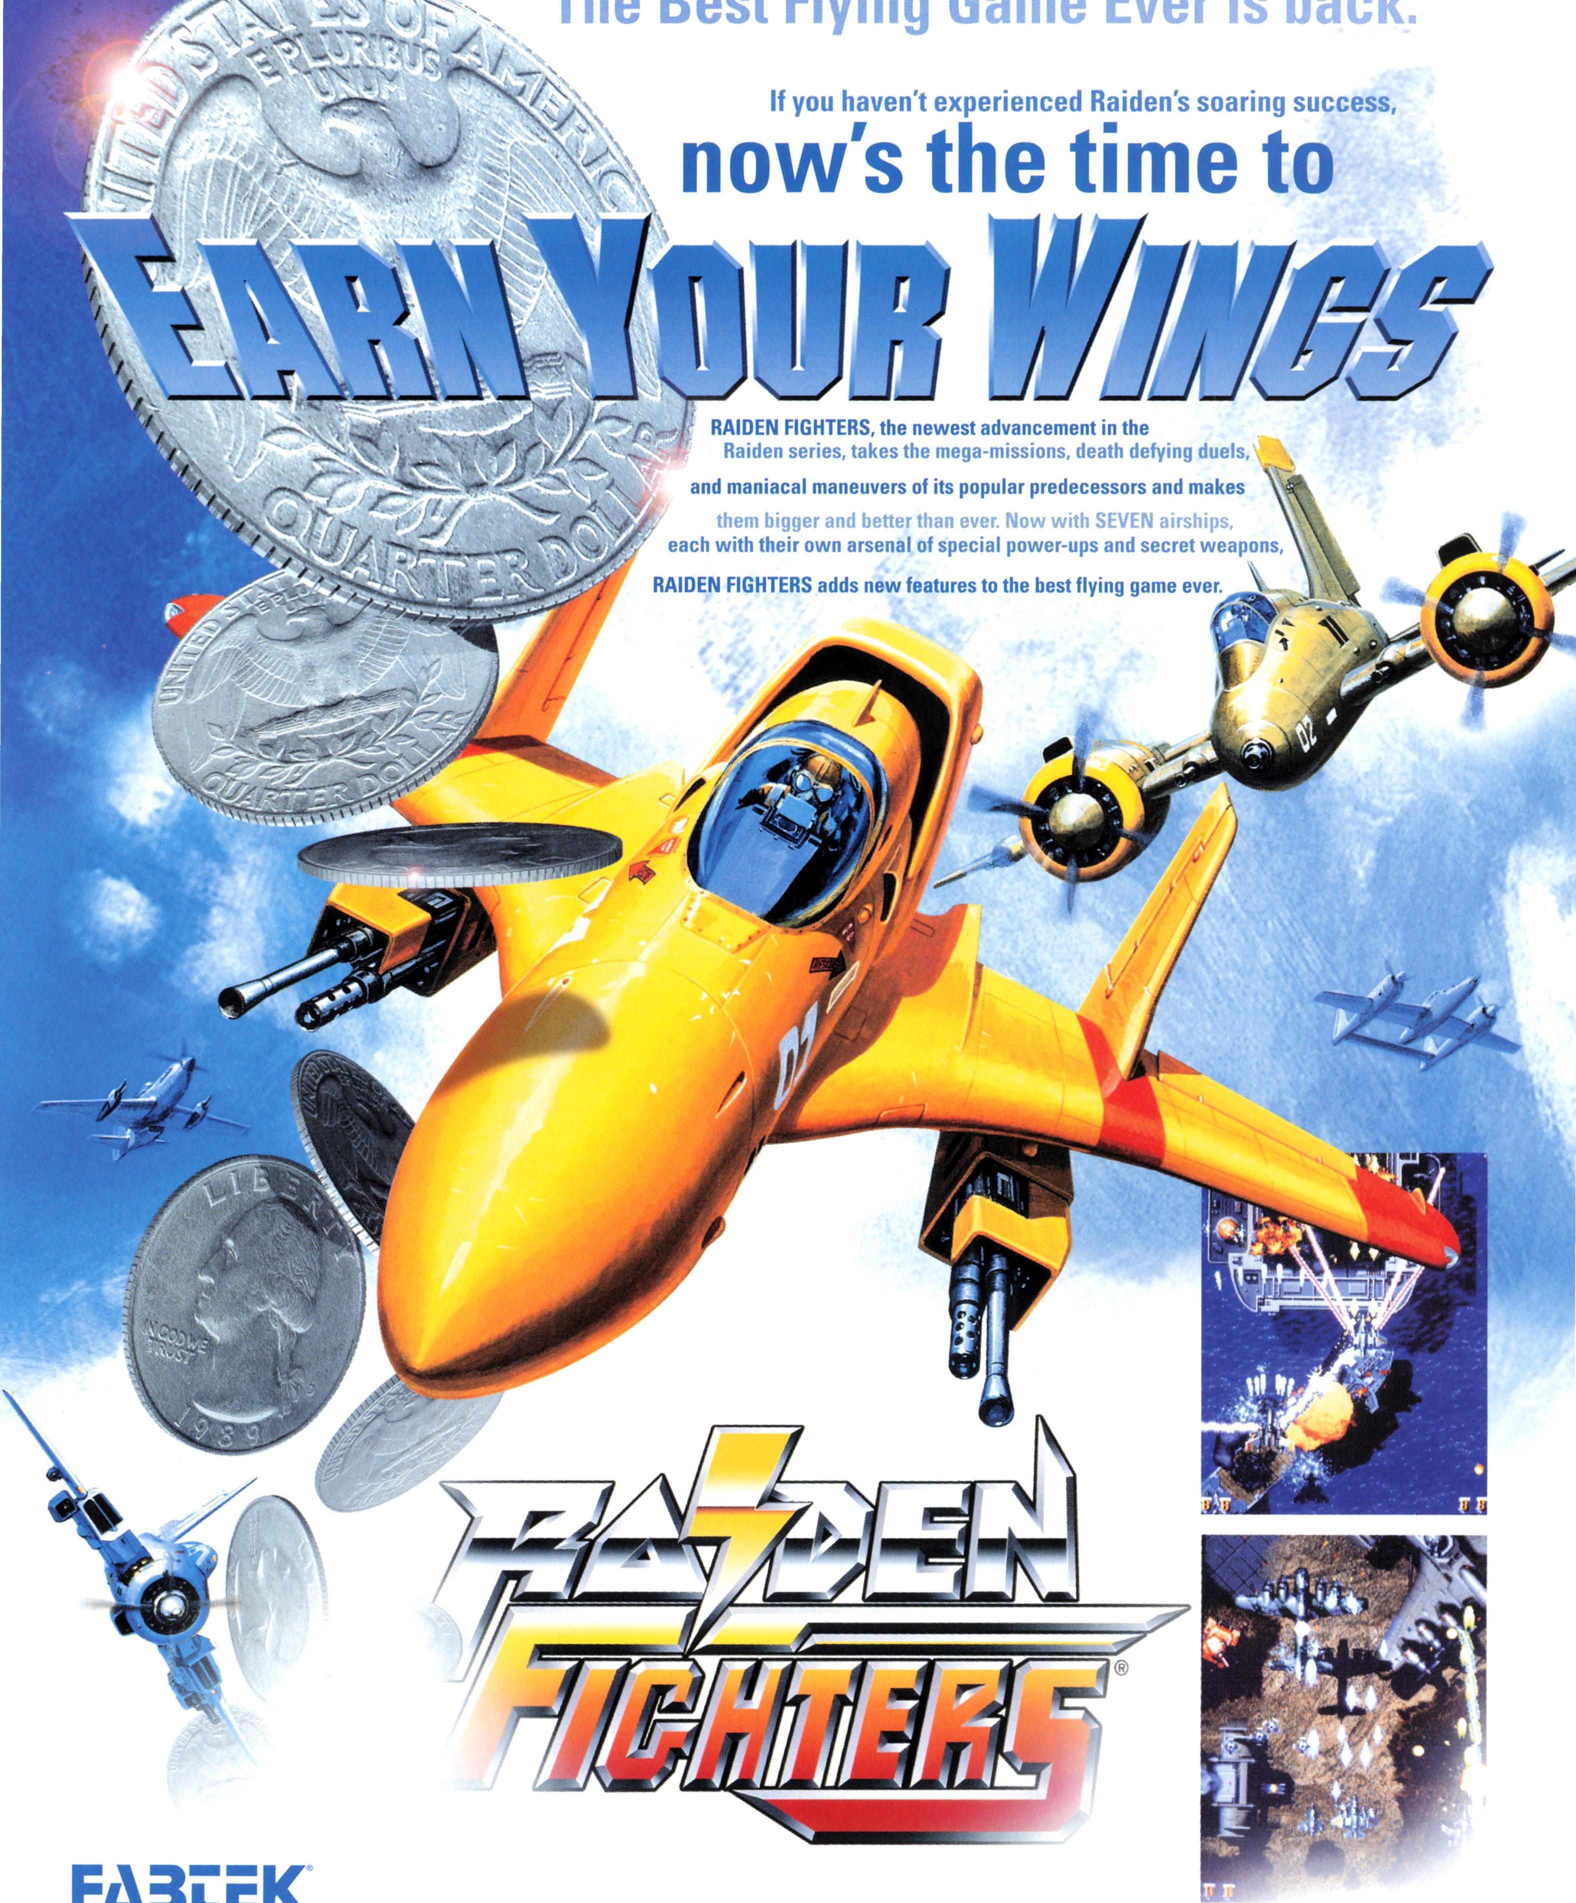
The Best Flying Game Ever is back.

If you haven't experienced Raiden's soaring success,

now's the time to

EARN YOUR WINGS

RAIDEN FIGHTERS, the newest advancement in the Raiden series, takes the mega-missions, death defying duels, and maniacal maneuvers of its popular predecessors and makes them bigger and better than ever. Now with SEVEN airships, each with their own arsenal of special power-ups and secret weapons, **RAIDEN FIGHTERS** adds new features to the best flying game ever.



All new, yet so familiar.

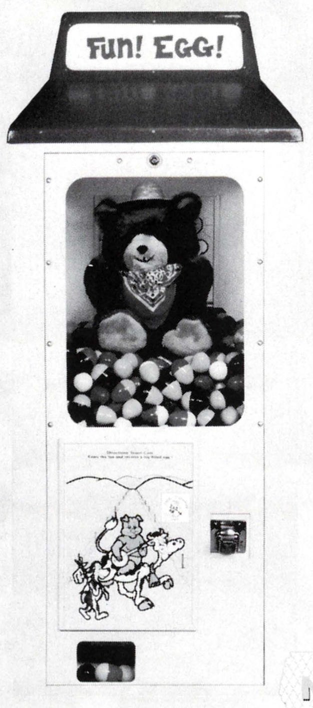
Introducing

"Farmer Bear"



Farmer Bear is a plastic egg vending machine that employs visual animation and electronic sound to appeal to children. It's easy and fun; just pop in a coin; the bear inside revolves; produces sound and lays a colorful plastic egg containing a small toy or candy. There's a prize every time. Just keep your machine filled with eggs and collect the cash.

We also can do a limited customizing of these units for you or your location. Other farm characters that are interchangeable from one cabinet to another are also available.

We have built this basic unit for years. It has proven itself to be profitable and dependable.

SPECIFICATIONS

Dimensions: 24" x 24" x 58"
Weight: approximately 165 lbs. without eggs.

- Constructed of durable heavy-gauge steel and ABS Cycolac Plastic™ with baked enamel finish.
- Solid state circuitry.
- Holds over 1000 eggs.
- Characters interchangeable.
- Comes complete and ready to operate - just remove packing, fill with eggs, position in desired location and plug into any 110v electrical outlet.

OPTIONAL FEATURES

- Either 25¢, 50¢ or token vending available.
- Customized sound effects.
- Limited customizing to cabinet.

HYPERBEAM

Return of the "Grand" lady.

We've never re-introduced any jukebox in our 40-year history. But, then again, no jukebox has had such an impact in 40 years.

So we enhanced this beautiful "lady's" appearance yet further ... new accents, new light-transmitting affects, new color-pulsating laser rods. And we fitted it with our NEW ultra-high-performance HyperBeam™ sound system — an even faster speed of CD change, even more features, an even more powerful sound, even greater technological "flexibility."

See the new "Performer Grand 2000" at your nearest NSM Distributor.

Look closely.
What other jukebox has
inspired an entire bar design?

RAINBOW

WORLD'S FINEST CRANES

A Commitment to Excellence

A majority of today's largest crane operators now buy only Rainbow Cranes.

These operators are Crane Pros — for most, cranes are their only business. They can't afford to use cranes that are not the very best.

Training & Support

Buying from American Vending Sales or buying from someone else...

It's no contest.

For over 25 years, AVS has been supplying the industry with top-of-the-line vending and amusement equipment. Plus, we add valuable services that manufacturers and other distributors can't offer, including:

✔ Professional service and repair technicians
✔ Extensive equipment inventory to meet your immediate needs
✔ State-of-the-art Electronics Department
✔ Over 15,000 different parts in stock for quick repairs
✔ Training sessions and phone support
✔ Convenient Chicagoland location
✔ Competitive pricing
✔ Commitment and continuity of employees
✔ Quick, easy financing for qualified customers

Make AVS the single source for all your vending and amusement equipment needs. After all, if top manufacturers depend on AVS to distribute their equipment, shouldn't you?

Thousands of coolers have been sold to vending machine companies since 1987.

See what some satisfied clients have to say...

I provide coolers on all my snack venders. What I like best about the Chill Factor air cooler is that it mounts on top. It's fast and easy to repair and replace. Now my customers will always be 100% satisfied. And Chill Factor makes that possible.

■

Air cooling units really did a great job in keeping my candies, especially chocolate covered ones, from being melted and destroyed. These units continue to provide me with excellent service. Thanks to Chill Factor owner, Robert Rockwell, you've got a customer for a very long time.

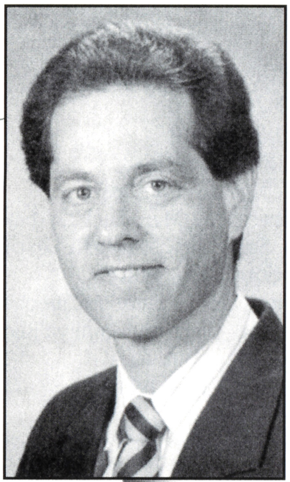
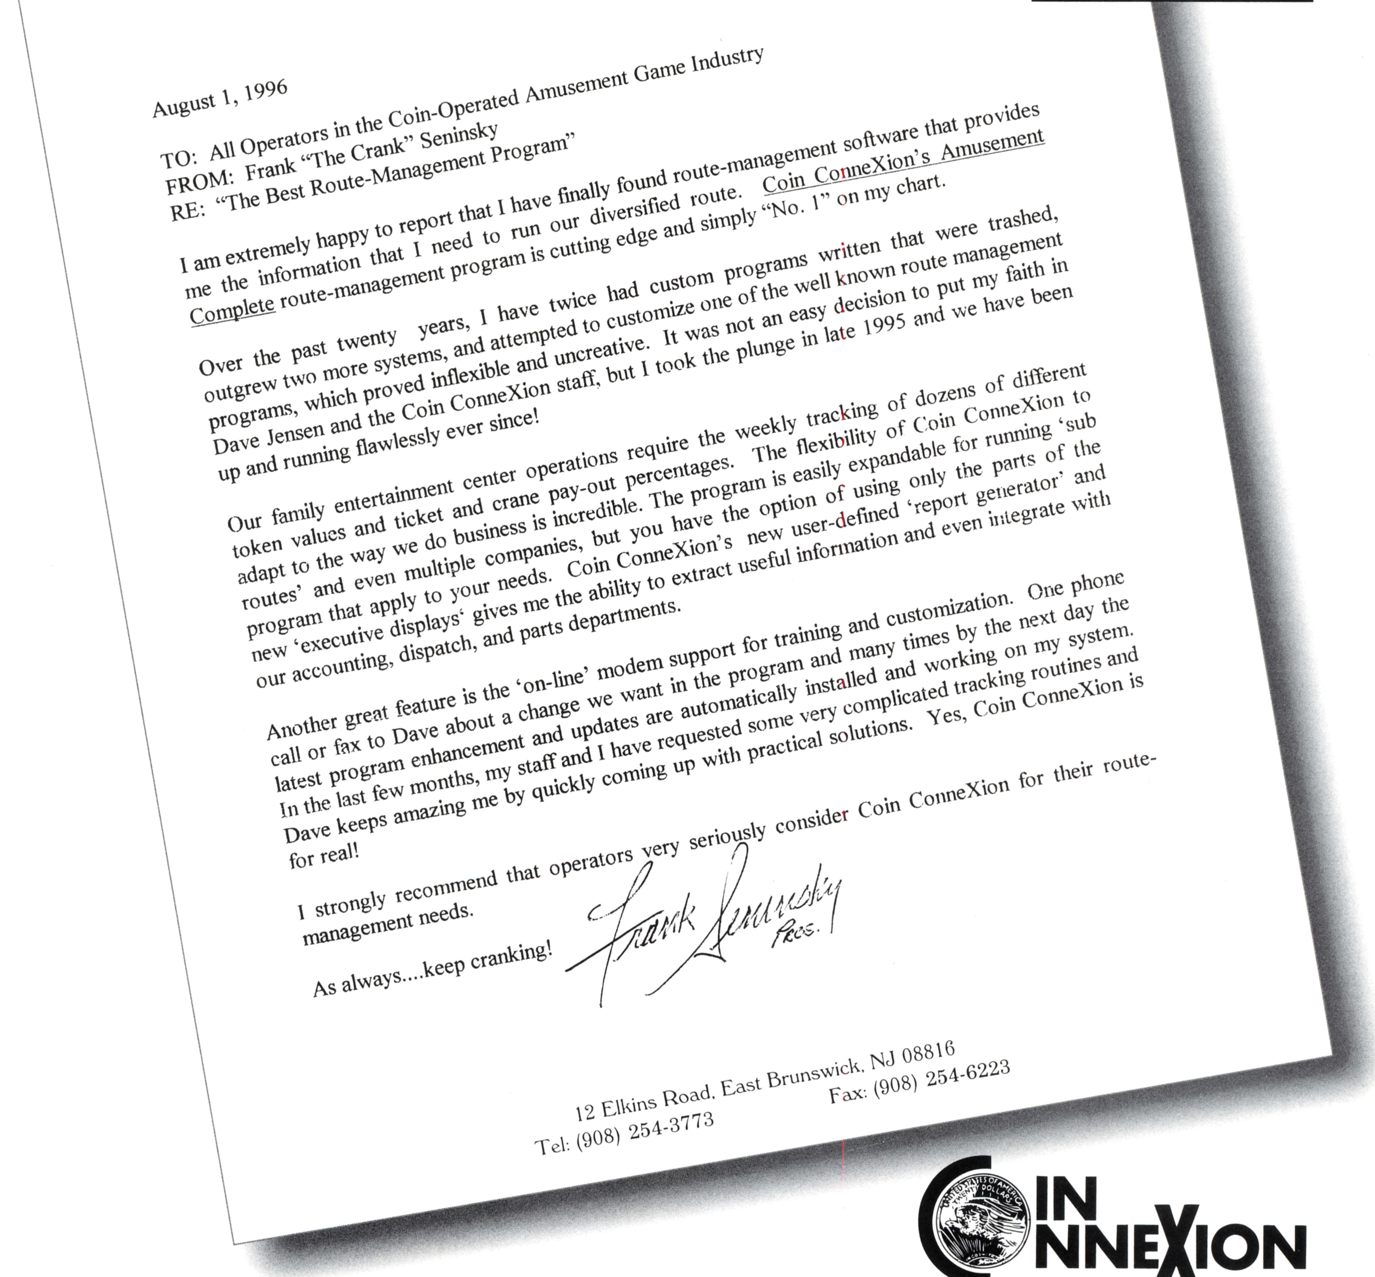
FRANK "THE CRANK" SENINSKY SPEAKS OUT ON THE BEST ROUTE-MANAGEMENT PROGRAM!





Alpha-Omega Amusements, Inc.
Leader in Coin-operated Games since 1969

August 1, 1996

TO: All Operators in the Coin-Operated Amusement Game Industry
FROM: Frank "The Crank" Seninsky
RE: "The Best Route-Management Program"

I am extremely happy to report that I have finally found route-management software that provides me the information that I need to run our diversified route. Coin ConneXion's Amusement Complete route-management program is cutting edge and simply "No. 1" on my chart.

Over the past twenty years, I have twice had custom programs written that were trashed, outgrew two more systems, and attempted to customize one of the well known route management programs, which proved inflexible and uncreative. It was not an easy decision to put my faith in Dave Jensen and the Coin ConneXion staff, but I took the plunge in late 1995 and we have been up and running flawlessly ever since!

Our family entertainment center operations require the weekly tracking of dozens of different token values and ticket and crane pay-out percentages. The flexibility of Coin ConneXion to adapt to the way we do business is incredible. The program is easily expandable for running 'sub routes' and even multiple companies, but you have the option of using only the parts of the program that apply to your needs. Coin ConneXion's new user-defined 'report generator' and new 'executive displays' gives me the ability to extract useful information and even integrate with our accounting, dispatch, and parts departments.

Another great feature is the 'on-line' modem support for training and customization. One phone call or fax to Dave about a change we want in the program and many times by the next day the latest program enhancement and updates are automatically installed and working on my system. In the last few months, my staff and I have requested some very complicated tracking routines and Dave keeps amazing me by quickly coming up with practical solutions. Yes, Coin ConneXion is for real!

I strongly recommend that operators very seriously consider Coin ConneXion for their route-management needs.

As always....keep cranking!

Randy Fromm

`Your company or association can now sponsor a "HANDS-ON" TRAINING session with Play Meter Magazine's Technical writer, Randy Fromm`

This can be anything from a two to five day program. You set the curriculum by choosing from a menu of possible seminars and "hands-on" labs. No matter what you choose, you'll get a practical repair class that's designed for operators, route mechanics and shop service techs who are looking for a quick and painless way to slash downtime by making a dramatic improvement in their repair skills.

You'll be amazed how interesting and easy it is to fix games. In just a few short days, students learn to perform repairs down to the component level. **These are NOT an advanced topics that are difficult to learn.** This class teaches you to quickly identify the problem in a game, repair it and get on to your next location or repair assignment. Call today for your ***FREE*** info pack!

Attention Operators: I strongly urge all operators get access to the Internet. Join me on-line at the **Amusement Industry Megasite**. All the latest news and products, plus the **Coin-Op Yellow Pages** offering special deals not available elsewhere. **http://laslots.com/aim**

COIN FLOW.
COIN FLOW.
COIN FLOW.

An Imonex coin acceptor means coin flow. Non-stop. There's virtually no stopping for coin jams. Or routine service or adjustment. And Imonex continuously processes even damaged coins. It's all because our famous processing system eliminates troublesome electronics, rockers and cradles.

LIBERTY
IN GOD WE TRUST

Behind every Imonex is our decade-long reputation for quality. A full one year warranty. And toll free customer support.

For non-stop coin flow, call today.

EAGLE LIFT

America's Standard in Liftgates
Introduces the exclusive
WIRELESS REMOTE ACTIVATION SYSTEM

Eagle Lift Liftgates exclusive wireless remote activation system helps prevent unauthorized operation making it the most secure and safe liftgate on the market today.

- A touch of the transmitter enables the liftgate to be operated by the toggle switch or control lever located on the curbside upright. Another touch of the transmitter immediately deactivates the gate.
- The wireless remote activation system has a built-in timer switch which shuts off all power to the lifgate 90 seconds after the gate is last activated or operated – reduces the possibility of unauthorized operation of the liftgate.
- Installation time is minimized by requiring only one electrical connection to the battery. No wiring through the truck's ignition.

and introduces the exclusive ABS PLASTIC COVER

The all new ABS high impact plastic platform cover (Patent Pending) for cable-type and direct lift liftgates for fullsize pickups, service bodies and cargo vans. The exclusive state of the art ABS cover dramatically improves the appearance and durability of the liftgate – won't rust and will absorb light impact without denting or breaking.

Your Silent Partner...
Around The Corner Or Around The World.

Your route management software should be your business partner, no matter where you do business. With over 1100 programs in use in the United States, Canada, Mexico and even countries as far away as Australia, Argentina, New Zealand and Venezuela, Silent Partner has proven itself to be a solid, reliable business partner.

That's because we've spent the last decade fine-tuning our program into what has become the standard of the industry, not only here, but also abroad.

Sure, you can buy cheaper software dressed up in fancier packages, but you can't buy the years of experience and expertise we put into making Silent Partner the best-tested and most versatile program on the market today.

We think that makes Silent Partner your passport to the very best route-management software in the world.

Purchase Silent Partner 14.0 today and we'll give you a ***free update*** to Silent Partner 15.0, a full Windows™ version.

Established in 1968, TSC has proudly served the ever evolving amusement industry for almost three decades. We have recruited staff for all phases of the development process for toys, pinball, arcade video, redemption, simulators, home systems, PC gaming, multimedia, and casino gaming equipment.

TSC offers experience and integrity as well as a long history of recruiting Artists, Producers, Software & Hardware Engineers, Sales & Marketing, Manufacturing, Quality & Test and the full range of personnel from entry level to CEO.

TSC has often been the first resource large corporations turn to when entering the amusement games arena and has been responsible for assembling top notch development groups.

TSC has recruited talent from within as well as outside the games industry and our many years of experience aids us in locating those individuals having the unique combination of creativity, drive enthusiasm and talent required to succeed in gaming.

Users' Reports

"We really liked our first Token Tech, which is why we ordered our second. I'm calling now to order our third."

"The Token Tech eliminates the need to spend hours making up rolls of 20 and 40 Tokens. We are saving enough labor cost to more than pay for it in less than two months."

"The best investment since we bought our fax machine. I can't ever imagine doing business without either one."

"We have good employees . . . The Token Tech removes the temptation for them to become "silent partners" by skimming the till."

"It's great! You should have come out with it 10 years ago."

"After using our Token Tech for Quarters, we are switching over to Tokens. Thanks to the dispenser, we got acquainted with your Token Systems."

"The Token Tech eliminates long lines at our cashier's cage. Our customers like it, too!"

"Our Batting Cage Tokens are valued at $1 each. Anyone with a high-value Token should be using a Token Tech."

"We use a larger size Token for our Carwash. All Tokens are sold through the Token Tech. It's accurate, and much faster, and it keeps our people honest."

"The first two Token Techs are excellent. We are sending our purchase order for six additional units."

"It's working just perfect. We love it!"

"For a $3 Cigarette Token, it's the only way to do business."

"We were using a system which had the "illusion of control" . . . The first shift manager counted all our Tokens. The third shift manager emptied all the cashboxes, and did a day-end count."

"The Token Tech has simplified our whole operation, and we know exactly where we stand every hour."

"We bought a similar item, made in Europe. It cost a lot more, but it never worked right, so we sent it back. Your Token Tech is far superior."

If you want to take more of these to the Bank every week . . .
